

Wolverton boys School

I have known Arthur Lewis Lloyd all his life.

He passed through this school successfully and finished by obtaining a minor Scholarship (being top boy) and leaving for the Secondary School.

This last year he has been a Student Teacher in these schools and has shown himself a patient and painstaking teacher, conscientious in the discharge of his duties and exemplary in conduct.

He has good control of his boys for one of his years and should prove a useful assistant in a school. (he is also a capable musician playing the piano creditably and singing in both notations)

He is a good swimmer and plays other games with considerable ability.
